

English law has spread its influence around the world. This book explains why and how it works. Law underpins the operation of society and affects us all. It is changing very quickly.

Quicklook at Law achieves the near-impossible task of compressing the subject into a read of less than 90 minutes. It covers the main areas of the law: crime, family law, employment, insurance and other topics are all covered clearly.

The book explains where law comes from and how the courts operate. You are taken under the skin of a court case and given an insight into how the legal profession works.

● The legal industry is a big business. What does the future hold? This book offers some ideas.

The author

Peter McGarrick practised as a solicitor for over 30 years. He rose to partner level in the West End and later the City. He was involved in law firm management and qualified as a High Court advocate. He now works as a mediator.

Every **Quicklook** book explains the basics of a big subject in a read of not more than 90 minutes – even for readers with no prior knowledge.

The books are of general interest but should be particularly useful to those entering the world of work.
